

Ride for the 
Rainforest

Sri Lanka Cycle Challenge

Challenge yourself on an exhilarating bike ride across the beautiful island of Sri Lanka as you join global cycling fundraiser Krista Bernard.

Visit magnificent rainforests and significant sites, plant trees and contribute towards the protection of this vital ecosystem.

Sri Lankan rainforest – identified as one of the most biologically diverse in the world – is at critical risk. See first-hand the awesome achievements of Rainforest Rescue as they work to protect these rainforests through sustainable projects that reduce pressure on rainforest resources while providing an alternative income for local people.
